

AVOL

Deliver things faster

Long-range autonomous delivery

TEAM

Dr. Nate Poon, CEO
2x founder, UC Berkeley PhD
Built logistics/medical products for Amazon, Tesla, DHL, Kaiser

Built robots/AI used by

Diar Sanakov, CTO
1x founder, MS Robotics NYU
Invented NeSLAM for spatial mapping and computer vision

Drake Norman, VP Manufacturing
Ex-AeroVironment
Designed and scaled first FAA-approved and military aircraft for billion-dollar military UAV developer

Nikita Kartashov, VP Systems
Rewrote PX4 from scratch
Designed custom firmware that allows Avol's blended-wing tailsitter to fly – as an intern.

Customers

Finances

$27k monthly revenue

$522 revenue per delivery

31% MoM growth

48% profit margin per air delivery

Operations

251 deliveries completed

3,200 miles flown

33 aircraft built

5 FAA approvals for NC, WV, NY, OH, OK

Partnerships w/

Mission

Build the fastest way to get from A to B.

Requires **a new type of air logistics** that is more widespread than cars, and faster/cheaper than helicopters.

Basic Principles

Efficient VTOL **aircraft**

Widespread landing **locations**

Consumer-grade **software**

Confidential and proprietary. Do not distribute. © 2026 Avol, Inc.

Avol core technology

Avol-10

Best-in-class range-payload-speed combo

VTOL

3,200+ miles flown

AvolPort

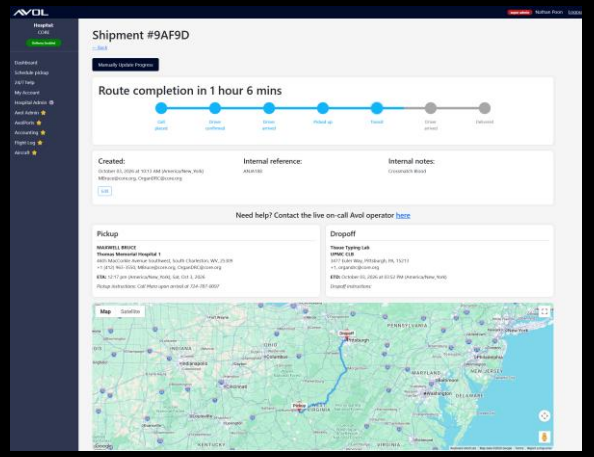

Basis for worldwide nodes

No permit required

GPS, RTK, RID, power incl.

Mass-manufacturable

OS software layer

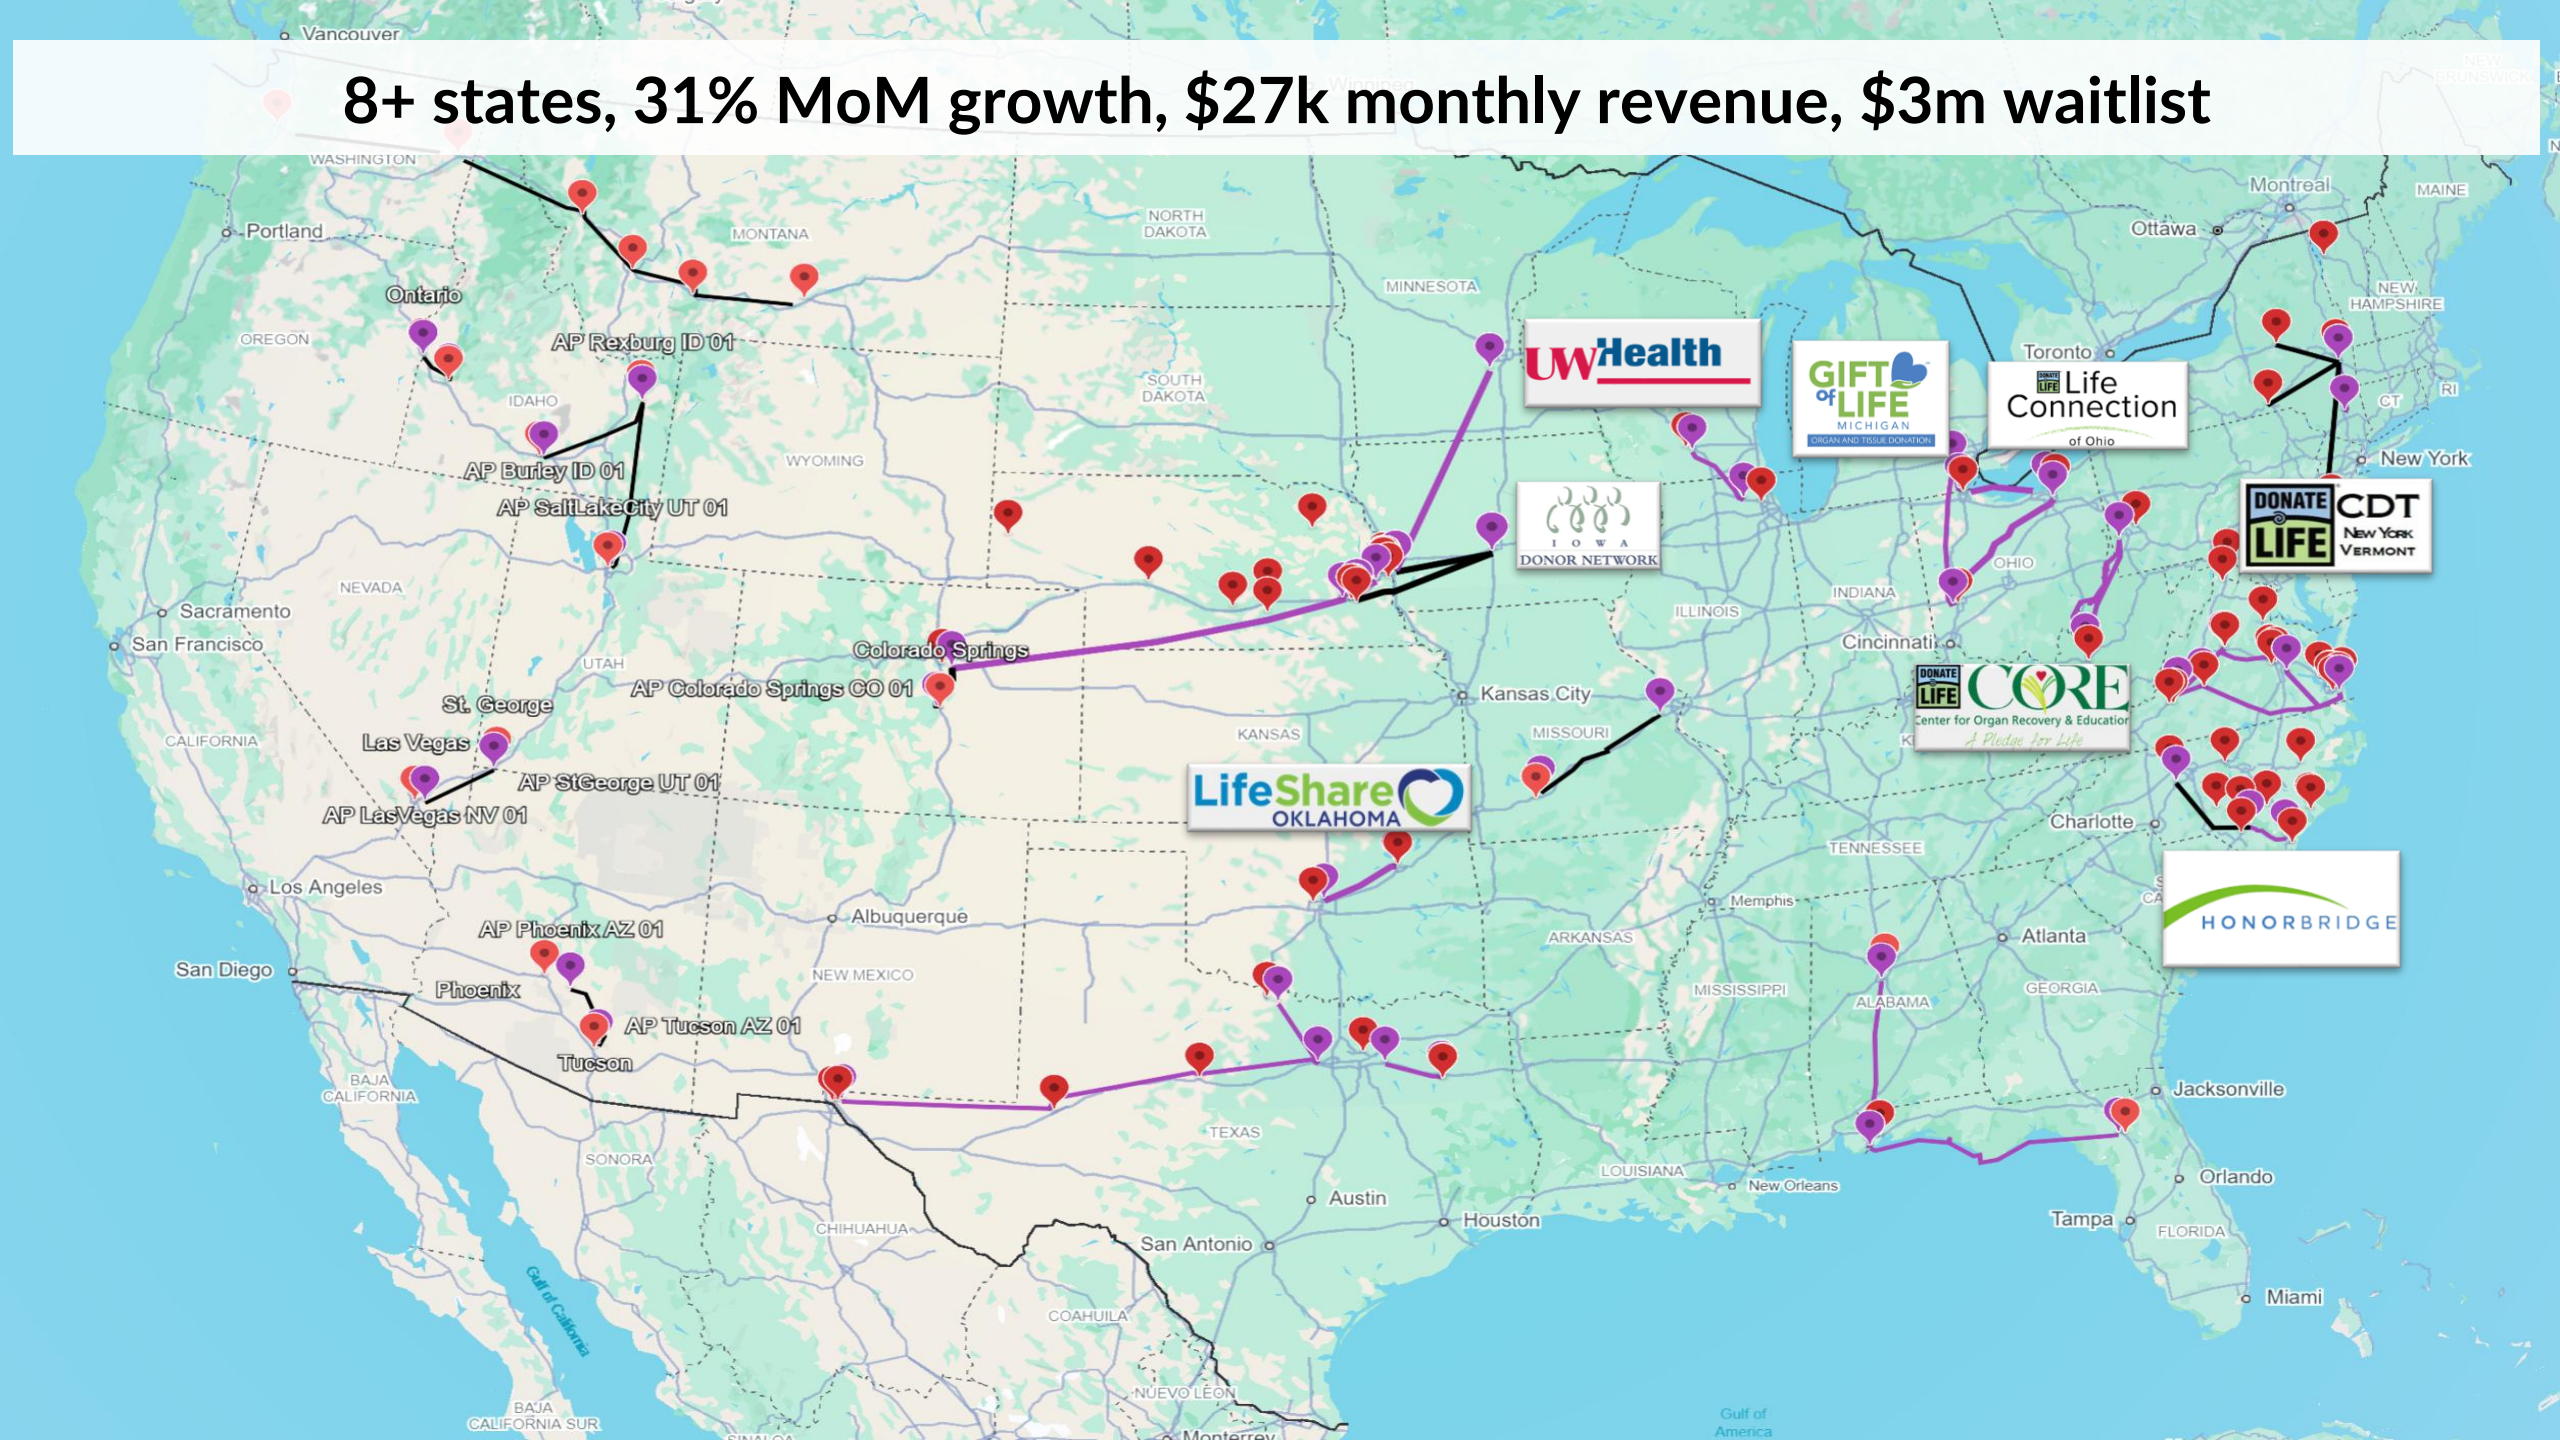

Flight planning, booking, tracking, manufacturing, in one platform

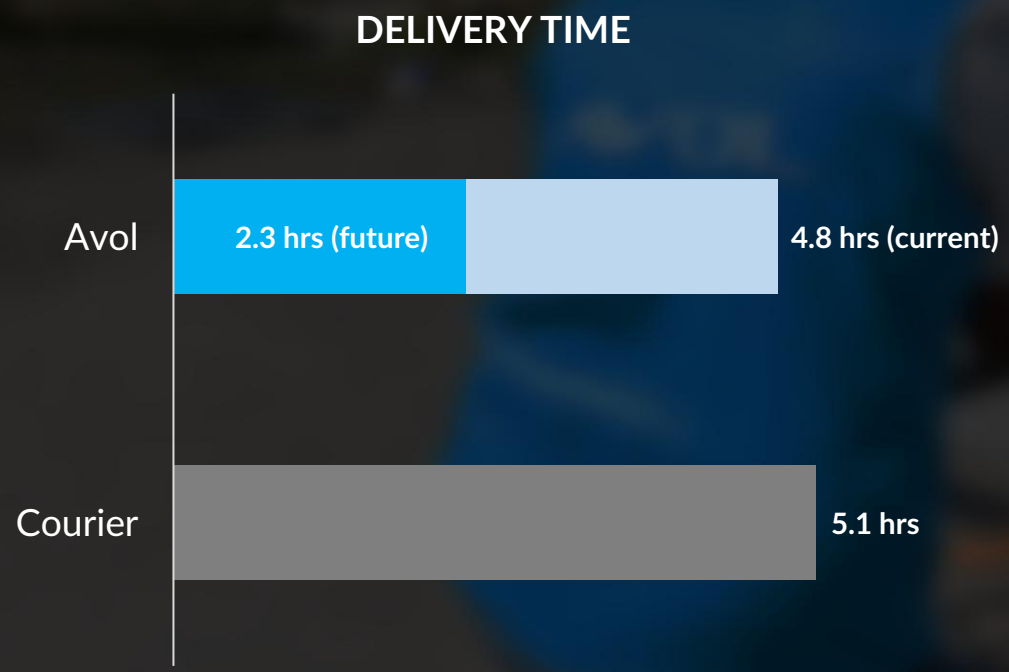

Data-basis for AI agents

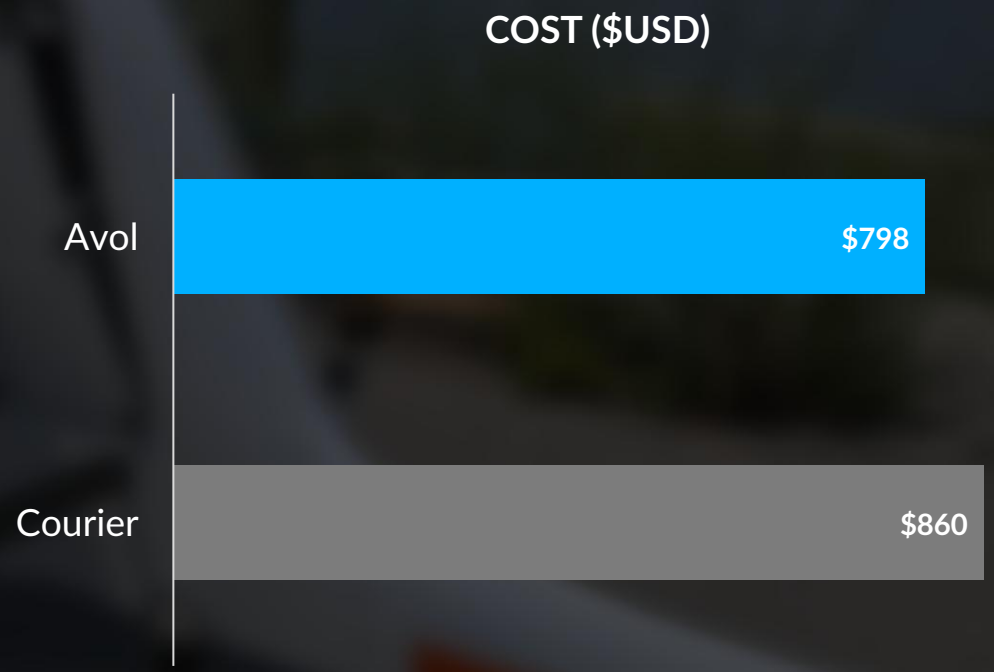

Confidential and proprietary. Do not distribute. © 2026 Avol, Inc.

8+ states, 31% MoM growth, $27k monthly revenue, $3m waitlist

Why customers choose Avol

Profitable deliveries from Day 1.

Revenue from delivery (market price)	**$1,300.00**
Cost of revenue	
Courier pickup	$64.00
Courier delivery	$72.00
Battery swap	$80.00
AvolPort rent	$25.00
AvolPort (amortized)	$14.00
Maintenance	$10.00
Charging	$0.45
Satellite Data	$31.47
Cellular Data	$2.57
Video compression	$52.45
Insurance	$125.17
Aircraft depreciation	$13.00
RPIC	$107.00
Total cost of revenue	**$597.11**
PROFIT / DELIVERY	**$702.80**

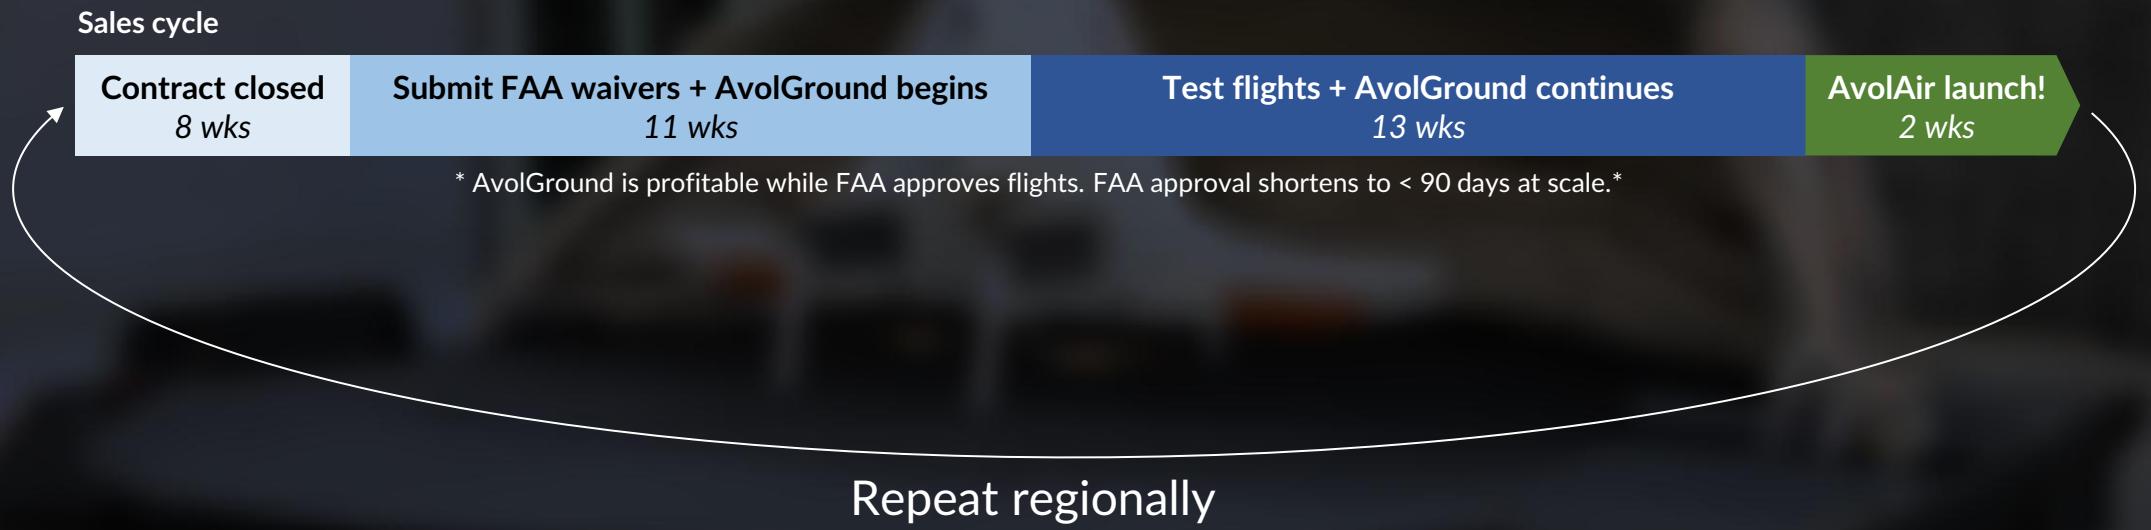

126 deliveries / route to breakeven (~11 mo)

~2-3 deliveries per week per route

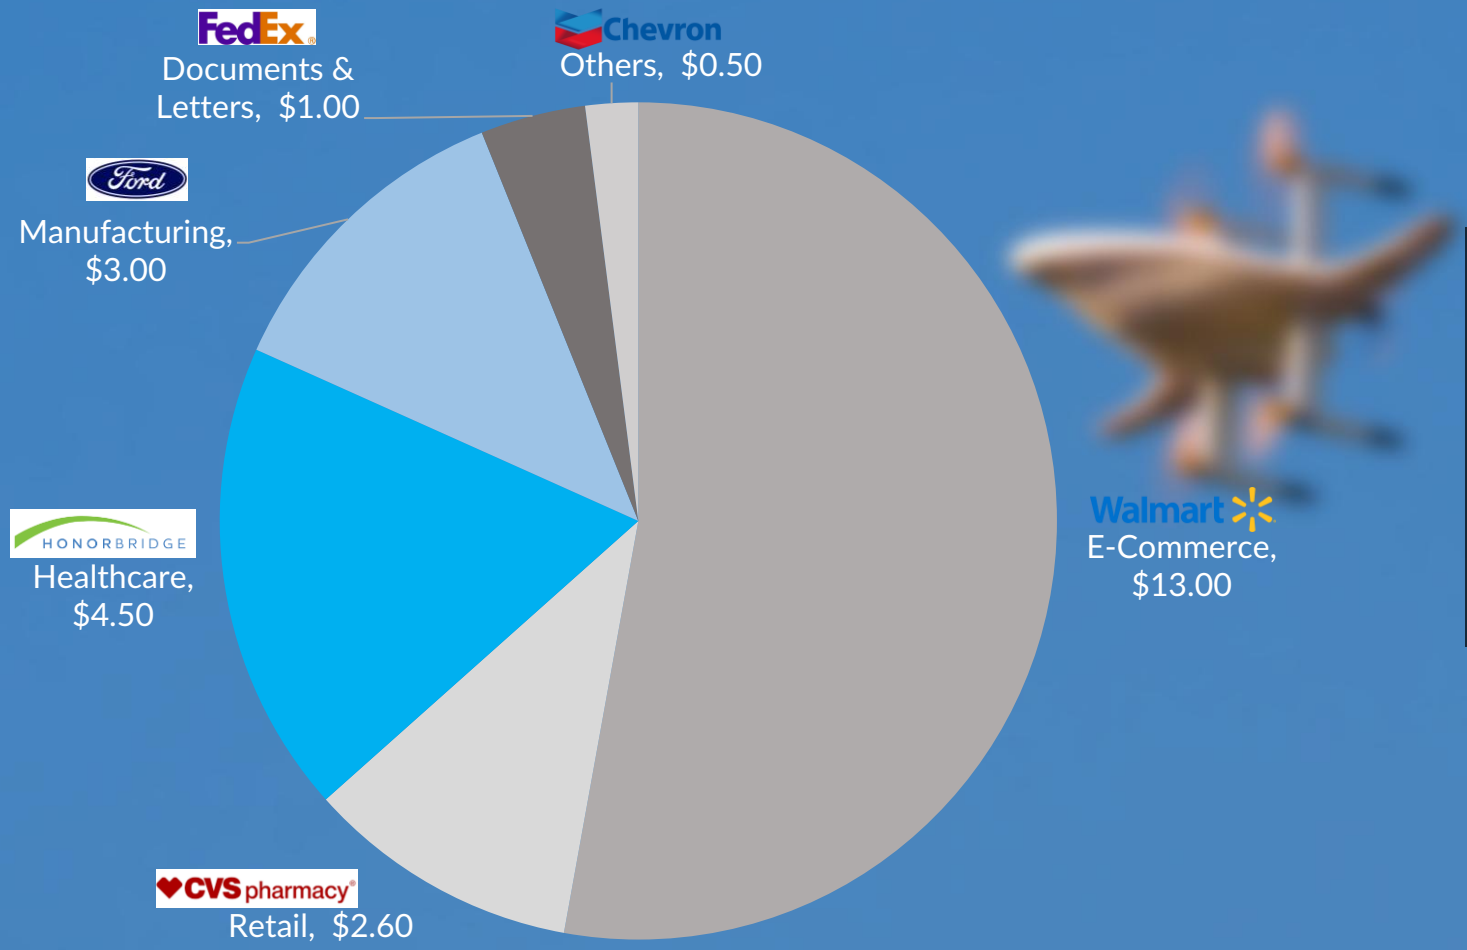

Each customer per route reduces costs by 50%

Predictable scalable deployment.

Foundational market for multiple industries.

Total initial addressable market: $24B USD

25% is healthcare

Everyone uses the same delivery routes

Sources: FedEx, DHL, UPS, Grandview, Business Research Company

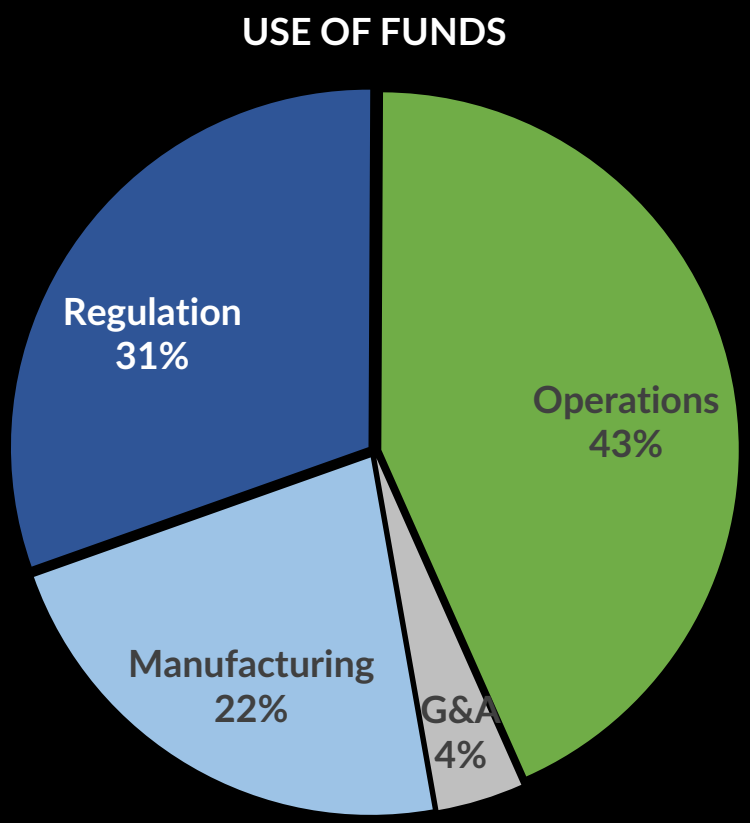

CONFIDENTIAL AND PROPRIETARY. This document is digitally watermarked to identify unauthorized distribution by Ulster Boces. Do not share without written approval from Avol. © 2026 Avol, Inc. All rights reserved.

Distribution beats technology.

Avol wins on delivery network first, aircraft second.

Raising $21M to automate air delivery nationwide.

1. Expand to all 56 OPOs nationwide for organ transplant
2. Scale up Avol-10 production to 20/month for military
3. $10M revenue, profitable by 2029
